APCBEES BANGKOK
Conference Report

2012 3rd International Conference on Biotechnology
and Food Science (ICBFS 2012)
Bangkok, Thailand. April 7-8, 2012

Student: Chuenjit Chancharonpong (P9922024)
Advisors: Prof. Hsieh Pao-Chuan (Ph.D.)

April 2012

Asia-Pacific Chemical, Biological & Environmental Engineering Society

Asia-Pacific Chemical, Biological & Environmental Engineering Society (APCBEES) was founded in 2007. It is an independent, nonprofit research and development organization. Its previous name of APCBEES was Asia-Pacific Environmental Consulting Center. The Service can be traced back to the first work in 1999.

APCBEES plays an influential role and promotes developments in Chemical, Biological & Environmental Theory and Applications in a wide range of ways. The mission of APCBEES is to foster and conduct collaborative interdisciplinary research in state-of-the-art methodologies and technologies within its areas of expertise.

Every year, APCBEES will Co-organize several important conferences with other universities, organizations all over the world, the conference proceedings of these conference will be indexed in Thomson ISI, Ei Compendex, and IEEE Xplore, and the selected papers will be published in the Journals. APCBEES is also involved in two International Journals with International Association of Computer Science and Information Technology (IACSIT).

This year, APCBEES organized several conferences in Bangkok on April 7-8, 2012. There are The “2012 3rd International Conference on Biotechnology and Food Science (ICBFS 2012)”, The “2012 International Conference on Bioinformatics and Biomedical Science (ICBBS 2012)”, The “2012 2nd International Conference on Environment Science and Engineering (ICESE 2012)”, and The “2012 1st Journal Conference on Environmental Science and Development (JCESD 2012 1st)”.

2012 3rd International Conference on Biotechnology and Food Science (ICBFS 2012)

The aim of the ICBFS conference series is to provide a forum for laying the foundations of a new principled approach to Biotechnology and Food Science. To this end, the meeting aims to attract participants with different backgrounds, to foster cross-pollination between different research fields, and to expose and discuss innovative theories, frameworks, methodologies, tools, and applications. The ICBFS 2012 is sponsored by Asia-Pacific Chemical, Biological & Environmental Engineering Society (APCBEES). Submitted conference papers will be reviewed by technical committees of the Conference.

ICBFS 2012 papers will be published in the APCBEES Procedia (Journal under Elsevier, ISSN: 2212-6708), and will be included in ScienceDirect, and indexed by Scopus, and sent to be reviewed by Ei Compendex and ISI Proceedings.

There was a Keynote Speaker Prof. Sezai ERCISLI from Ataturk University Agricultural, Faculty Department of Horticulture, Erzurum-Turkey. His speech was “Apricot: Food and Biotechnology Aspect”.

Figure 1: The conference's members

On April 8, 2012, I presented my papers on “Enzyme production and growth of *Aspergillus oryzae* S. on soybean koji fermentation” and “Effect of Different Combinations of Soybean and Wheat Bran on Enzyme Production from *Aspergillus oryzae* S.” at 15.00-15.20 in session-2 (Figure 4). Moreover, on the session-2 and 4, there were various presentations in food science and technology; for example, apply food microbiology, food engineering, food chemistry, and food safety.
