**2013 4th International Conference on Agriculture and Animal Science  
(CAAS 2013)**

Cape Panwa Hotel, Phuket, Thailand on November 23-24, 2013

The international conference on agriculture and animal science (CAAS 2013) is an international forum for participants with different backgrounds, to present their latest research and development results in all areas of Agriculture and Animal Science.

The aim of the CAAS 2013 conference series is to provide a forum for laying the foundations of a new principled approach to Agriculture and Animal Science. To this end, the meeting aims to attract participants with different backgrounds, to foster cross-pollination between different research fields, and to expose and discuss innovative theories, frameworks, methodologies, tools, and applications (Table 1).

The CAAS 2013 is sponsored by Asia-Pacific Chemical, Biological & Environmental Engineering Society (APCBEEES). Submitted conference papers will be reviewed by technical committees of the Conference.

There were two keynote speakers, Prof. Judilynn N. Solidum from University of the Philippines, Manila, Philippines. Her speech was the “Heavy Metals in Manila, Philippines setting”, then Prof. Richard Haynes from the University of Queensland, Australia. His speech was the “Constructed wetlands: an effective green technology for treating wastewaters”.

All of the CAAS 2013 conference proceedings will be published in the APCBEE Procedia (Journal under Elsevier, ISSN: 2212-6708), and will be included in Science Direct, EI Compendex (Elsevier publications) and ISI Proceedings.

On November 24, 2013, I presented my papers on the “Climate Change Impacts on Agricultural Products in Thailand: A Case Study of Thai Rice at the Chao Phraya River Basin” (Figure 4-6). At the end of my presentation I

received precise comments which able to enhance my future work. The most important thing I received from this conference is learning up to date researches in my field. This helps me a lot to create and improve my researches. At the end of the conference I got the certificate as shown in figure 7.
